DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 4 of the remark, filed 6/3/2010, with respect to claims 1 and 4 have been fully considered and are persuasive. The 35 U.S.C 102 rejections of claims 1 and 4 have been withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1 and 4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

For claim 1, there's no description in the specification for "the control portion controls an operation of the pick-up in the **following order of (1) to (4)**"

Also for claim 1, there's no disclosure for "only original audio data of the one block are read out with video data not read out".

Claim 4 is also affected.

Allowable Subject Matter

Claims 1 and 4 would be allowed if 35 U.S.C 112 rejections are overcome.
